

What is Elemental Space Clearing®?

Elemental Space Clearing® is the art of clearing energy and blessing spaces. The process used incorporates Native American cultural traditions, traditions of other native cultures across the globe, and may include elements of traditional religions, based on your belief system and needs. Through the use of various techniques and methods, space clearing removes blockages and releases negative patterns and/or limitations related to your home, but which can, in turn, bring about benefits in other parts of your life. Dissolving negative energy helps to release what you no longer want in your life and activates energy that can draw to you what you desire to manifest.

As a practitioner, I conduct a client interview, come to your home/business/office/place of work ahead of time (if possible), and ask that you hand draw a floor plan (one page per floor) prior to the clearing date. (Hand drawings are essential if I'm doing a "virtual" space clearing!) I can also clear individuals - for example, if you're stuck in your career, feel overwhelmed by negative situations or emotion, or are under severe stress. In these cases, I would base my clearing on a discussion with you to determine which blockages or negative energies you wish to lift or dispel from your life. On the day of the clearing (if a virtual clearing), I will contact you to let you know the ceremony has been completed and any necessary next steps.

A home that has been cleared and blessed is a home where it is safe to be yourself - a place to embrace your joy and experience peace and tranquility.

Examples of results from Elemental Space Clearing® include: selling a cleared house within 24 hours of the ceremony, a person that was cleared being offered a new job within a few weeks of having been cleared, and returning the feel of a home to the safe sanctuary that it should be from one that had begun to feel dull or stagnant. I have also had cases where unwanted paranormal activity or negative energy from a previous owner stopped or was removed by space clearing. While I cannot always guarantee that an earthbound spirit will leave a location, I have had success to date moving them on.

Preparing for a Clearing

Although I might just clear one or two floors, drawing every room is helpful to decide where to begin. It is also really important to clean your home prior to my visit to dispel or activate energy – it also shows respect for the time I am spending to help you clear some energy. I am not here to judge you or the state of your home – I just want to help as best as I can. If I am able to come ahead of time, I like to take a tour of the part of the home I will be clearing. One of the other helpful things you can do is to clutter clear – chose one area or part of your office or home that you've been meaning to re-organize with this simple philosophy: if you love it, keep it and if it no longer serves you, throw it out or donate it. If needed, I can help you decide where to start.

After the Clearing

Be prepared to have a salt bath or shower (including washing your hair) within 6 hours of the clearing! This includes all residents of the home. While bathing, visualize any remaining negative energy or emotions being washed away down the drain. This may sound odd, but this reinforces the clearing and symbolizes the fresh start you need...and, to be fair, I have to do the same!

Maintain any decluttering you have done and if clearing spirits/entities, take precautions so as not to invite them back into your home. In these cases, I will give specific actions you'll need to take after the clearing ceremony is completed.
